

Using the DCL Navigator App & WiFi

Disney Cruise Line is in the process of updating both its WiFi connections and pricing plans throughout the fleet. Guests can have access to WiFi while sailing on all five Disney Cruise Line ships.

Wifi on Disney Cruise Line is referred to as Connect@Sea

Once you've boarded, access the DCL-GUEST Wi-Fi network to learn about the different offerings, specific pricing for your cruise/ship, and select the plan that fits your needs best. Your Wi-Fi plan will be charged to your stateroom folio. This CANNOT be purchased ahead of time.

Note that there is no cost for connecting to the ship's Wi-Fi network when used only for the Disney Cruise Line Navigator app.

NAVIGATOR APP

Stay up-to-date and connected with the Disney Cruise Line Navigator app.

How It Works

Access essential, up-to-date cruise information directly from your smartphone app while you're on board the ship.

You can choose ship experiences that cater to your family as a whole or each person individually. So, whether you want to check each day's activities schedule for the duration of your cruise, see the options on a restaurant menu or find out what's playing at the movies—it's there at your fingertips, along with so much more! It's the easiest way to navigate around the ship.

With just a simple tap of your smartphone, effortlessly find what you're looking for, including:

Deck Parties Dining Menus Entertainment Live Show Times Nightclubs and Lounges Descriptions Ports of Call Information	Spa Services Shopping Youth Clubs Character Experience Locations Drink of the Day
---	--

You can also:

- See what's happening every minute of every day
- Save favorite activities to one convenient list
- Explore the ship from bow to stern, deck by deck

On-board Chat Feature

Now it's easy to stay in touch with family and friends, even if everyone happens to be on different parts of the ship.

With the new, Onboard Chat feature, you can text message person-to-person with your travel party and new friends without ever having to exit the app. It's a complimentary feature that works between smartphones while aboard the ship. You can also receive vibrating message alerts and control your children's access using the Permissions feature.

Note: Onboard Chat is for shipboard use only. It is not functional at ports of call, including Disney's Castaway Cay. However, Guests can use Wave Phones to communicate with each other while visiting Castaway Cay. The Disney Cruise Line Navigator app is not compatible with Wave Phones.

Download the App

Disney Cruise Line Navigator helps you make the most of each cruise day—get the complimentary app to get started. Available in the Apple App StoreSM for iOS devices and Google Play[™] for Android devices.

Be sure to download the app to your smartphone before boarding the ship to avoid roaming charges. Once aboard, your app will connect to the ship's WiFi network, and internet activity used to support app functionality is complimentary. Available on all 4 Disney Cruise Line ships.

Disney Cruise Line Navigator is always adding new features to enhance your Guest experience, so make sure you have the most current version.

Note: The Disney Cruise Line Navigator app is available to download in all countries except Japan.

Please let me know if you have any questions about using the WiFi or Disney Cruise Line Navigator App!
